**Re: Remedial Action Report Addendum No. 2 (December 17, 1999)
CKWitco/Witco Perth Amboy Plant
1000 Convery Boulevard
Perth Amboy, Middlesex County, New Jersey**

Dear Mr. Kohlhasse:

The New Jersey Department of Environmental Protection (NJDEP or Department) has completed a review of the above-referenced document for the Crompton Corporation's (formerly CKWitco/Witco) Perth Amboy Plant. The Remedial Action Report (RAR) Addendum No. 2 is conditionally approved upon modification of the proposed figures to include soil sample locations with associated analytical results that clearly indicate the elevated PCB concentrations (greater than 0.49 mg/kg) remaining at the site under the two asphalt-capped areas. The analytical results may be presented directly on the figures or in a tabulated form. Crompton Corporation shall submit this additional information within 30 days of receipt of this letter.

If you have any questions concerning the Department's RAR Addendum No. 2 comments, please feel free to contact me directly at (609) 633-1478 or email at tconti@dep.state.nj.us.

Sincerely,

Patricia A. Conti, Case Manager
Bureau of Case Management
